And, I explained that for our proposed early actions we can prioritize based on the Nez Perce 8 areas and/or PRO vs non-PRO involvement, and/or degree of loading etc... Thus, this should be considered work in progress subject to changes based on prioritization and the other parties suggestions, agree?

Elizabeth and I talked in response to her inquiry (I informed her we have not discussed our interim actions work with anyone else yet, but are looking forward to those discussions). Midas came in for a meeting with the RA recently to **Ex. 5 Deliberative Process (DP)** Just letting you know - Elizabeth will be setting up a meeting with you and I this week so she can get familiar with your memo/cost est, and proceed to plan on future discussions with Tribe, FS, IDEQ, etc...

Hi Tim and Don. Has anyone been coordinating with the Sho-Bans, the FS, or IDEQ on the development of the interim actions? I'm not sure how to respond to the Sho-Ban's attorney. Thanks.

Hi Elizabeth,

I hope you had happy holidays and that your new year has started off well.

I was wondering if EPA has developed any options regarding interim actions to request of Midas Gold. You mentioned last month during an agency call I was on that EPA would be preparing some options.

I'm asking because ShoBan has a meeting with Midas Gold tomorrow and we've been asked to have some suggestions for the Council. If they coincide with EPA's, I'm figuring so much the better.

Sorry for the last minute request!

Thanks,

Jill
